A Census of Known *Super Prophetas* Manuscripts

David Morris

- 1 The following twenty-one manuscripts can be confirmed to have all or part of the *Super Prophetas* complex. Parenthetical notes indicate whichever sections are omitted in a given version. The manuscripts are listed in alphabetical order, first by the city where they are presently found, then by their library or archive, and finally by their shelf-mark.
- 2 The chart below tracks the attestations of these manuscripts in earlier lists. The numeration in the chart corresponds with that in our listing. An “x” indicates a manuscript’s inclusion in a particular list. The chart organizes these lists in chronological order of publication, from the oldest (left) to the most recent (right).
